

# FAMILY PILLAR IMPACT

The Family Pillar changes lives by providing immediate support and fostering long-term growth. It strengthens family bonds, encourages personal development, and creates a supportive environment where all generations can thrive and contribute to their communities.

## 1. Gogo Development Classes

Youth

**A strong start  
for a brighter  
future**

COPT has partnered with Character Company NPO to support young boys in our communities who lack father figures. Character Company trains mentors to step into this role, offering guidance, support, and a positive male presence in their lives. These mentors spend quality time with the boys, providing the fatherly support many are missing, helping them grow into strong, confident young men.

## Training Entrepreneurs

Adults

**Supporting  
today shaping  
tomorrow**

At COPT, we are dedicated to empowering youth through entrepreneurship. We've hosted seminars, partnered with SEDA for expert guidance, and provided courses to help them develop essential business skills. These initiatives aim to inspire and equip young people to pursue their entrepreneurial dreams, fostering independence and creating opportunities for a brighter future.

**Strong Mentors,  
Stronger Futures**

Our Gauteng mentorship programs helped people grow and change for the better. 'Boys in the Furnace' and 'Girls @ The Gate' gave young people a safe space to learn, connect, and grow in faith. Sisonke Bafo supported men through honest conversations, helping many find jobs. The Family Restoration Program brought families closer, giving them hope and strength for the future.

**Joining Hands  
for Impact.**

Gauteng worked with several partners to support the community. We ran crime and drug awareness with the Yeoville Crime Desk, trained caregivers with Jesuit Refugee Services, and offered health programmes through WITS RHI and Yeoville Clinic. Career guidance came from SALSO, and ALX helped with computer skills. The Nelson Mandela and Thabo Mbeki Foundations supported men's programmes, while The Character Company and BMSA mentored young boys. Together, these partnerships made a real impact.
